BIG SANDY AND OLD DOMINION HIGHWAY ASSOCIATION FORMED

Strong Organization Accomplished in the Greatest Meeting Ever Held in Eastern Kentucky to Build Mayo Trail

At last we have the opportunity to make good in the use of the old stereotyped expression, "the largest and most enthusiastic meeting ever held in the Big Sandy valley." Everybody who was in Paintsville last Monday will readily agree that this is a conservative description of the Big Sandy highway meeting held in that progressive city on February 10th. Many of those present went farther and declared it to have been the largest and most enthusiastic body of citizens they ever had seen together on a public mission. Extra coaches were carried by all trains, and even with that there was not room enough for all who wanted to attend from up the Big Sandy. Hundreds poured from the trains arriving at Paintsville that morning. The delegations from Boyd and Lawrence were headed by a fine brass band furnished by the Ashland Rotarians and Commercial Club and almost the entire number marched the mile or more from the station to the handsome new public school building. The large auditorium proved to be too small for the meeting, but a temporary organization was soon effected and it was announced that the regular meeting would convene at one o'clock in the Mayo Memorial church, which has the largest seating capacity of any building in town.

Judge W. A. Ginn of Ashland called the meeting to order. John E. Buckingham was elected chairman and B. F. Forgy secretary. They accepted very gracefully. F. H. Yates suggested that each county organize at the noon hour and report during the afternoon. Upon motion the chair appointed a committee on organization composed of one man from each county, as follows: James Sowards, French Combs, H. S. Howes, F. H. Yates and W. A. Ginn.

Almost any other town of the size of Paintsville would have been swept off its feet by the flood of delegates that rushed down upon her, but she had magnanimously undertaken to feed the visitors free, and chairman Buckingham announced the fact to the horde of hungry whoopers without a tremor. And they did it in fine style. The two hotels and many homes met the emergency as placidly as if it had been a weekly occurrence. It was a rare exhibition of hospitality and the delegates fully appreciated it as such. Upon reassembling at one o'clock the committee on permanent organization reported in substance as follows: That the name of this organization be the Big Sandy & Old Dominion Highway Association and that the object be the construction of a paved road from Ashland to the Virginia line, and that the road be named "The John C. C. Mayo Trail."

That John E. Buckingham be elected president, B. F. Forgy secretary and M. F. Conley treasurer. That there should be a vice president from each county. The report was unanimously adopted.

Judge A. J. Kirk made a warm address of welcome and George Byrne of Ashland responded in appropriate words.

Excellent speeches were made by Judge Ginn, F. W. Stowers, F. H. Yates, Judge Will Watson, Major Setts and Judge Patrick. Mr. Buckingham made an ideal presiding officer and in the course of the day said many forceful and appropriate things.

The gathering was full of enthusiasm for the highway and everybody came away with the feeling that the road will be built.

A collection of \$99 cash and a few additional subscriptions was taken to defray incidental expenses.

It was decided later to send Augustus Snyder and B. F. Forgy to Washington, where they will be joined by President John E. Buckingham in an effort to secure help for the highway. They agreed to leave for Washington on Thursday night of this week.

Mr. F. H. Yates, of Louisa, receives a large share of credit for the big meeting.

Lawrence county was represented by a large number of delegates. Coal operators were conspicuous by their presence and interest, which fact is appreciated by the citizens.

The Paintsville Herald issued a special edition in the evening covering the meeting in good style and the delegates were supplied with free copies.

Telegrams pledging their support and regretting their enforced absence were received and read to the gathering from Congressmen John W. Langley and W. J. Fields, Dr. S. F. Fetter and M. S. Burns.

Follow It Up. Such a fine start deserves an enthusiastic "follow up." A splendid organization has been perfected. No better man could be chosen than Mr. Buckingham for president. He is a leader who is recognized as such not only at home, but in the financial circles of Cincinnati, Louisville and New York. Let everybody help to keep the project hot until it is an accomplished fact.

Dr. G. W. Wroten Kindly Remembered

A few months ago there was quite a good deal of discussion about a reunion of the pupils of the old Masonic Academy, which flourished in Louisa soon after the Civil war, under the management of Dr. G. W. Wroten. War conditions proved to be very much in the way of carrying out this happy suggestion. There grew out of it, however, something that has cheered and gratified Dr. Wroten very deeply. Many of those who attended that school have written letters of appreciation for the benefits that came to them through Dr. Wroten's work as their instructor. Several have enclosed checks, which they asked him to receive as further evidence of their esteem and gratitude. In conversation with Dr. Wroten about the matter he expressed to us the deepest appreciation of these kind remembrances and said nothing would delight him more than to write each one a letter of thanks; but he is now physically unable to do this. He requested that the NEWS, which was his medium of expression for many years, extend to all his pupils the sincerest appreciation of the spirit they have exhibited toward him at all times.

A remarkable number of these students have risen to prominence in the world and many of them give him credit for the inspiration that carried them on.

STREET PAVING TO START EARLY

The City Council of Louisa hopes to begin street paving as early in the spring as the weather will permit. It is the present intention to start on Lock-av., where James Lackey now lives and continue the work to the city limits near Lick creek. This paving will be done under the supervision of the State Road Commissioner and one-half of the expense will be paid by the state and the other by the citizens who own property abutting the pavement. As soon as the council can get the cost of the paving the citizens will be notified as to the amount each will have to pay, and it is hoped all will be ready to pay cash for the work. The council hopes to find a way to pave some other streets than those named.

TOBACCO BRINGING RECORD BREAKING PRICES

Huntington has come to the front as a tobacco market, as a result of which the Huntington Tobacco warehouse is to greatly enlarge its plant. The farmers who raised tobacco last year struck it rich. Never before did the crop bring so much money. Lawrence county produced some tobacco, but nothing like what the farmers would have raised if they could have foreseen the present situation. We are wondering what they will do about it this year.

DEATH HAS THINNED RANKS OF CONFEDERATES

He was 40 years old and leaves his wife and three children.

LOUISA PUBLIC SCHOOL NEAR END

**WILL CLOSE FOR THE YEAR ON
FEBRUARY 28. CROWDED
GRADES RELIEVED.**

The Board of Education of Louisa has solved the difficulty of the extremely overcrowded condition of the primary department at the public school building for the coming year. At the opening of the next fall term the plan will go into effect for the seventh and eighth grades to be taught at the College building, under the direct oversight of Professor Byington; and the remaining five grades to be distributed among the five teachers at the public school building. This new arrangement will not in any way affect the promotions from grade to grade at the end of this term.

As the State Board of Education has shortened the term of the public schools throughout the state, the free schools in Louisa will close earlier than usual this spring, on February 28.

Not much change in the teaching force at the public school building is expected for the coming year. Professor Kennison will continue as principal of the High School, and Professor Hyington as superintendent of the Louisa City Schools.

The Board of Education of Louisa at present consists of the following gentlemen: G. S. Wilson, O. C. Atkins, C. B. Wellman and Wm. Remmel.

She was past 70 years of age and had been totally blind for several years. She was the widow of Abram Vaughan, who died a few years ago. Mrs. Vaughan had been physically helpless for quite a long time, in addition to being blind. She was a most excellent woman, a devoted christian, and a member of the Baptist church. The burial took place Tuesday, the services being conducted by Rev. J. T. Pope, of Louisa.

W. D. COCHRAN DIES SUDDENLY IN CINCINNATI

ED. F. GRAY STILL IN HOSPITAL.

Ed. Gray, C. & O. agent at Kijore, who has been in the C. & O. hospital at Huntington since last November, was able last Sunday to leave his bed for the first time since entering the institution. Mr. and Mrs. Gray, both desperately ill of pneumonia, were taken one night last November and placed in a Huntington hospital. Mrs. Gray dying within a few hours after reaching that city. Mr. Gray has only within the last few days learned of his wife's death, his extreme weakness making it necessary to keep him in ignorance of the distressing fact.

E. E. SHANNON FOR THE LEGISLATURE

WILL BE A CANDIDATE FOR REPRESENTATIVE FROM LAWRENCE AND ELLIOTT COUNTIES.

Mr. E. E. Shannon, of Louisa, has decided to ask for the Democratic nomination for Representative in the Kentucky Legislature from the district composed of the counties of Elliott and Lawrence. His formal announcement will appear soon.

This is a new district and the question of which county is entitled to the first nomination has been under consideration. The rule that the county casting the largest number of Democratic votes takes the lead in certain matters connected with party organization, such as the district chairmanship in conventions, seems to be about the only guide in this case. Under this construction Lawrence is entitled to the first call. Then Elliott would have the right of way next time and it would thereafter be an alternating proposition.

Mr. Shannon was campaign chairman of Lawrence county last fall. He has been active in politics all his life, but this is his first time to go to the people asking for votes for himself. The suggestion of making the race came to him recently from several citizens of the county and he decided that he would like to go to Frankfort for one term as representative of this district. He will stand for the best interests of the constituents and will no doubt prove a useful member of the body.

BUCKINGHAM FOR GOVERNOR OF KY.

At a meeting of some of the leading men of the State in Louisville last week, Jno. E. Buckingham was urged to make the race for Governor of Kentucky. The meeting was held for the purpose of discussing the matter of a candidate for Governor and Mr. Buckingham was the unanimous choice of all present.

Mr. Buckingham is a native of Paintsville and our people are glad to know that he is being talked of as gubernatorial timber. He would make an ideal Governor and the people of Eastern Kentucky, regardless of politics, would like to see him Governor of Kentucky.

Mr. Buckingham is the busiest man in the valley with his banks, coal operations to look after, but "Governor Jno. E. Buckingham" would sound mighty good to the people of this section of Kentucky. He could fill the office with credit to himself and to the satisfaction of the people generally. Mr. Buckingham declines to make the race—Paintsville Herald.

Mr. Buckingham would make an ideal Governor. He is recognized as one of the leading business men of Kentucky, a man of high ideals, unselfish, well equipped to grace any platform or position. The State would be fortunate to have such a man in control of her affairs.

PRICHARD QUILTS WAYNE CO. COURT

**PHARO OSBORN CHOSEN TO FILL
VACANCY IN IMPORTANT
BODY.**

The Wayne, W. Va., News says: B. J. Prichard, who was elected commissioner of the county court two years ago, resigned Tuesday. With his resignation came a recommendation that the other two members appoint Pharo Osborn of Echo to fill the vacancy.

The court considered the matter accepted the resignation and Mr. Osborn being in town at the time was called and notified of the court's intentions and he accepted the appointment and was sworn in as a member of the court.

Mr. Prichard was a valuable member of the court, his good business qualifications and legal ability combined with the interest he has taken in upbuilding the county made him particularly fitted for the position, but a difference of policy arose between the other members and himself, and he concluded that he would hand in his resignation.

Mr. Osborn his successor is not a new man to the citizens of the county, having served in various capacities and most recently a member of the Wayne County local draft board. He is a large farmer, and a good business man and will make a valuable member of the court.

The court will soon have the construction of the roads authorized by the bond issue in hand and we believe that due diligence will be used to see that every dollar will yield a hundred per cent in value to the citizens of the county.

WAS ARRESTED FOR ROBBERY

The Ashland Independent says: A man giving his name as A. L. Music was arrested in Ashland charged with being one of the gang of three men who have been robbing stores, postoffice and depot buildings in the Beaver Creek section of Big Sandy.

Between January 29 and February 2 the gang, composed of George Morgan, A. L. Music and an unknown member it is claimed robbed several postoffices and stores. They broke into the postoffice and depot at Beaver Creek escaping with some money and things of minor value.

In their attempt to rob the store of the Black Diamond Coal Company on Beaver Creek they were surrounded, just as they were preparing to blow the safe, and George Morgan, one of their number, was arrested, the other two escaping.

The police of the surrounding towns were immediately notified and their vigilance resulted in the arrest of the second member of the gang. Music had but recently received a discharge from the United States Army. He is at present lodged in the prison and will be turned over to the postoffice department.

CHURCH ACCEPTS MAYO PROPERTY

**PROPOSITION OF MRS. S. P. FETTER FOR DONATION OF
PAINTSVILLE PLANT.**

On Wednesday night of this week a meeting was held at Huntington by the authorities of the M. E. Church South to whom had been committed the duty of acting upon the proposition of Mrs. S. P. Fetter to convey valuable Paintsville property to the John C. C. Mayo college.

Present were Dr. R. T. Webb of Parkersburg; Rev. A. E. O'Dell of Webster Springs, and A. H. Land, of Logan, delegated by the conference with full authority to act for the church. The others present were John E. Buckingham, Rev. H. G. Sowards and M. F. Conley.

After full discussion it was decided to accept the proposition of Mrs. Fetter, which means that the handsome residence and office property at Paintsville is to be donated to the Jno. C. C. Mayo College formerly known as Sandy Valley Seminary. The church is to raise an endowment fund of \$165,000 within ten years.

This addition to the school property gives it about fifty acres of land with buildings and equipment giving the plant a value of something near a million dollars. The large three-story mansion is the finest in Kentucky and is so well constructed of the highest class materials that no repairs of consequence will be needed for many decades. The same may be said of the office building. The residence contains 28 rooms, with spacious halls, and is so arranged that it may be utilized to good advantage. No more attractive school plant is to be found anywhere than this highly improved and modern property makes. It adjoins the grounds containing the main school building and the handsome dormitory for girls. Just across a street is the \$60,000 Mayo Memorial church building.

Under the management of president H. G. Sowards the school is getting a fine start.

LAWRENCE COUNTY BOY IN FRANCE

Martinville Vosges, France.
December 26, 1918.

Mr. and Mrs. B. F. Salyer,
Ellen, Ky.

Dear Homefolks:—I received your letter of December 1 and was sure glad to hear from you.

Well, as for me I just had a fine Christmas. We had a good dinner at our kitchen and a dandy good supper here with the folks where we stay. We had two rabbits; one chicken, oranges, eggs and plenty of wine and fried potatoes and plenty of other stuff. It was prepared the best of any supper that I've seen since I left home.

We had a Christmas tree here too and we had plenty of chocolate. We got our government issue of chocolate for two weeks. Also a Christmas package from the Y. M. C. A., so you see we had a splendid time.

Yes, I believe it was the answer to our prayer that brought peace.

Mamma, I heard some very bad news yesterday. My old friend, Thomas Nelson, while at the Verdon front refused to let his pal, T. A. Mullins, go out for information, and went in his stead and while he was out he received a few wounds which resulted in his death about December 20. He sure was a good boy. Mullins said the last time he saw him he was saying his prayers. He sent word to us by a friend of his to tell us all hello.

May God bless his mother and homefolks and may they and all his friends meet him in the sweet beyond, and may they realize that he has not died in vain. He did his bit and gave his life that we could live in sweet peace hereafter.

So with love to you all I will now close.

Your son,
PVT. ESLEY SALTER
Co. E, 113 U. S. Infantry,
29 Div. A. E. F.,

WILL MAKE HUNS REALIZE DEFEAT

Paris, February 12.—The supreme council at its meeting to-day decided on the conditions for the renewal of the armistice with Germany, according to an official announcement.

The council decided first to place Germany in a military situation where it would be impossible for her to recommence hostilities.

It is pointed out that the enemy countries are preserving war material permitting them to equip very rapidly an army of at least 3,000,000 men.

The council decided, secondly, according to Havas "to make Germany realize that we are the conquerors and that it is not a 'white peace' that we are seeking to impose on her."

OSCAR SKAGGS SICK.

Oscar Skaggs, formerly a traveling salesman for Dixon, Moore & Co., is reported to be quite ill at his home on Upper Blaine. He is a fine young man and his many friends hope for his early recovery.

DAILY REVIEW

FRIDAY.

Four of the world's most celebrated statesmen find their careers so linked with the progress of the Peace Conference that their every sacrifice of personal interest and every compromise reached is the greatest possible demonstration of their desire to serve humanity, according to Arthur B. Crook, special correspondent of the Courier-Journal to the Peace Conference. These four men are Woodrow Wilson, David Lloyd George, Victoriano Sonnino and Georges Clemenceau.

Something better than has yet been devised against future wars but without the positive assurance humanity has dreamed about probably sums up in broad general terms the constitution of the League of Nations, now being framed.

Legislation giving the President authority to create a new agency or continue any existing one for the purpose of maintaining the Government's guaranteed price for the 1919 wheat crop was agreed on by the House Agriculture Committee. The bill provides a working fund of \$1,000,000,000.

Seattle's general strike started on schedule time at 10 o'clock yesterday morning. Sending of troops from Camp Lewis to Seattle was authorized by Secretary Baker, after he had been advised by the Governor of Washington of the situation. Forty-five thousand workers are out.

Germany is making utmost efforts to have the Allies believe she is near-

ing bankruptcy, declared Raoul Peret, chairman of the Budget Committee of the French Chamber of Deputies, in discussing the financial problems before the Peace Conference.

Elihu Root, honorary president of the National League of Nations, defended the work of that organization in the last congressional campaign in testimony before the special House committee investigating the league's political activities.

With the submission to Congress yesterday of the conference agreement on the War Revenue Bill the American people were presented with their prospective Federal tax budget for 1919 and ensuing years.

Advices from Paris indicate that Persia is pressing earnestly for representation at the peace table on the ground that she has suffered more damage than any of the small nations with the exception of Belgium.

Fifty thousand soldiers of the American Expeditionary Force have been enrolled as students in the army post schools under the direction of the Army Educational Commissions.

Christian Donhauser, the German airman, who shot down Quentin Roosevelt, was killed January 13 when his plane became uncontrollable and fell.

SATURDAY.

President Wilson has been asked to name a committee of industrial leaders and Government representatives to investigate a scale of prices at which the Government will buy basic commodities during the post-war period. In making the announcement Secretary of Commerce Redfield said there is no prospect of an immediate restoration of pre-war prices and that such action by the Government would have a stabilizing influence which business needs badly.

The Supreme Council at its meeting yesterday discussed the terms of the extension of the armistice with Germany and will meet again today. It is believed that the Council will take steps to bring the German Government to its senses, the threat of Ebert before the German National Assembly being regarded as the climax of the delays and obstruction on the part of Germany, which are exhausting the patience of the Allies.

President Wilson and members of the American mission are anxious that discussion of the League of Nations be taken up immediately by the American people in order that some idea may be gained as to the attitude of the public on the important questions involved.

Poland fears that Russian Reds plan to invade their nation in large numbers and Gen. Shepitisky, Chief of Staff, says it will be necessary for the Poles or the Allies to open a route to Danzig in order to bring in food supplies.

Kurt Eisner, in an interview at Bern, said that a search of the Bavarian archives proves conclusively that Germany was responsible for the war and that former Emperor William bears the greatest blame.

American and British shoe interests have reached an agreement in London that Great Britain will admit American boots and shoes in the same proportion that it proposes to admit American leather.

President Wilson has been forced to abandon his proposed visit to Belgium by pressure of work in the Peace Conference, but it is understood, if he returns to Europe he will visit the little kingdom.

SUNDAY.

A cablegram from the Peace Conference says if a League of Nations of an effective character is established by the Peace Conference, the American programme for a navy equal to any in the world will be modified. The cablegram says that the United States by this programme is giving notice to the world that it is ready to play the old game if the world so wills it.

According to the correspondent of the London Morning Post, the Delmatian question is regarded as amicably settled and the relations between

the Greeks and Italians at the Peace Conference are more cordial. He says that great progress has been made toward a world settlement and that Premier Venizelos of Greece, has exerted a great influence.

Chinese delegates to the Peace Conference regard the agreement between the United States and Japan recognizing that Japan has special interests in China as the only blemish on the otherwise clean slate of America. They hope the League of Nations plan will nullify that treaty.

Advices from Paris indicate that while the French have yielded on various points in the peace negotiations, they will be unyielding on the question of reparation and will urge that the Germans be made to pay until it hurts.

Baron Makino, senior Japanese delegate to the Peace Conference, made public a statement declaring that Japan is seeking nothing from China, but asserting the claims of his country to islands in the Pacific.

Work on the Army Appropriation Bill has been completed and the measure carrying an appropriation of \$800,000,000 for the year beginning July 1 will be presented to the House tomorrow.

The cries in Bolshevikism is believed to have been reached, either turning to imperialism or anarchy. If imperialism, it is feared that Trotsky is planning to proclaim himself.

Georges Clemenceau, Premier of France, yesterday in a statement to the Associated Press declared "there is still a chaotic but fruitful Russia from which great help may be drawn by the Teutons." Premier Clemenceau in opening the interview said, "While I have said that the war has been won, it would perhaps be more accurate to say that there is a lull in the storm."

"The most important part of the preliminary work of establishing a Society of Nations has been concluded," announced Prof. Ferdinand Larnaud yesterday. Prof. Larnaud is one of the French delegates on the Commission of a Society of Nations.

A Thought for the Boys

We do not see much written about poor, wild, reckless boys, who deserve the sympathy, tears, and prayers of every Christian woman and man. There is a period in the life of a boy when, if he makes a mistake, people or some classes, at least, are apt to magnify the same, and having the tact of being more critical than correct, the matter is announced to all the world, or to that portion in which the culprit dwells. That most angelic christian grace, Charity, fails to come to the trembling balance and weigh the burden upon the side of mercy, and so the boy is hoisted and reviled as he goes "slipping down the ladder rung by rung," till he is eventually lost to love and trust. There is not a good christian woman on earth who cannot do good if she will only speak kindly and encouragingly to those wild boys and try to draw them into something that is good and noble. Make them realize that they have one true and sympathetic friend at least; one that will assist and defend in their darkest hours. Select some wild boy, give him good advice, lend him good words, arouse the spirit of true manhood and try to impress upon his mind that "It is not all of life to live, Nor all of death to die."

He was wise who wrote: "Half the sting of poverty or of small means is gone when one keeps house for one's own comfort, and not for the comfort of one's neighbors." Deny it as we will, few of us have the moral force to set up a standard of our own, based upon our own incomes and our own particular home environments. We commit the folly of regulating our expenses by the income of some one else. If the Browns across the street hang up expensive lace curtains, we are disappointed until lace curtains have gone up to our windows, no matter how much smaller our income may be than that of the Browns. If the Smiths put down a velvet carpet on their stairs, and pretty ingrained becomes an eye sore to us. We are extremely mindful of what our neighbors will think about many things that should not concern them in the least. We have no standard of our own. Our dress and even our tables must be regulated by the standard of others. We have not the courage nor the independence to be indifferent to the comment of our neighbors. This form of moral cowardice is causing many families to live beyond their incomes.

Let home stand before all other things. No matter how high your ambition may transcend its duties, no matter how far your talents or your influence may reach beyond its doors, before everything else build a true home! Then from its walls shall come forth the true woman and the true man, who shall together rule and bless the land. Is this an overwrought picture? We think not. What honor can be greater than to found such a home? What dignity higher than to reign its undisputed mistress? What is the ability to speak from a public platform to large, intelligent audiences, or the wisdom that may command a seat on the judge's bench, compared to that which can insure and preside over a true home, that husband and children "rise and call her blessed." To be the guiding star, the ruling spirit in such a position is higher honor than to rule an empire.

A gentleman stops at a friend's house and finds it in confusion. He does not see anything to apologize for—"never thinks of such matters." Everything is right, cold supper, cold room, crying children—"perfectly comfortable!" Good homes, where his wife has been taking care of the children or attending the sick, and working her life almost out. Then he does not see why things can't be kept in order, "there never were such cross children before!" No apologies accepted at home! Oh, why not look at the sunny side at home as well as abroad, and try pleasant words instead of surly ones? Why not use freely that golden coin of courtesy?

The pessimist delights in derision of the good resolutions which mark the celebration of New Year in the minds of many people. Shame upon the man or woman who would dull the bright ambition and desire for the better of any human being. There is little time to give to habitual mourners and augurs of evil. The new year will be what we make it, so far as our individual lives are concerned, and the man or woman who resolves

Only One Corn Peeler, "Gets-It"

Stop Corn Pains; See Corn Peel Off. It is just when a corn hurts that you want to feel surest about getting rid of it. Why take chances of keeping the corn and having the pain grow worse? You'll use "Gets-It" and be sure to be corn-free!

The Only Peel-Off Way Is "Gets-It." It's anyhow, sooner or later, might as well use it sooner. Then you are absolutely sure that the corn will loosen from your toe so that you can peel the whole thing off painlessly with your fingers, in one complete piece—just like peeling a banana. It takes a second or two to apply "Gets-It." There's no fusing or puttering. Corn-pains will vanish—that'll keep you sweet while the "Gets-It" does the rest. Nothing new for corns has been discovered since "Gets-It" was born. Follow the judgment of the millions; use "Gets-It" and be sure to be corn-free! You'll say it's magic. "Gets-It," the guaranteed, money-back corn-remover, the only sure cure, costs but a trifle at any drug store. Made by E. Lawrence & Co., Chicago, Ill.

CORP. JOHN MEADE RETURNS TO STATES

Camp Merritt, N. J., Jan. 30th. Mrs. Elizabeth Meade, Louisville, Ky.

Dear Mother: I am well and in the good old U. S. and am the happiest boy in the world, believe me. I arrived here today on the U. S. ship Mongolia, one of the big White Star liners. About 5,000 came over. We sure were a happy bunch. We almost tore up the ship. We were about ten days coming over.

I do not expect to be here more than three or four days, then I will leave for Ft. Thomas where I will be discharged in a couple of weeks. My, but that sounds too good to be true—back home and dear old mother! Don't think because you haven't heard from me often that I never think of you, for there is never a day passes but what I think of you all. A boy doesn't know how to appreciate a mother's love until he goes out into the world, and a fellow sure goes through torment in war. But now it is all over; we have done what we went over there to do, and it sure is fine to be coming home again. My old company is away up in Germany. There were several of my friends came over with me. I had several souvenirs from Germany, but when I went over the top and got wounded, I had to leave them behind. I had my last examination today. Expect I will have some dental work done before I come home. I have much to be thankful for, believe me. Hoping to be with you soon. Lovingly your son, JOHN.

GIRLS! WHITEN SKIN WITH LEMON JUICE

Make a beauty lotion for a few cents to remove tan, freckles, sallowness.

Your grocer has the lemons and any drug store or toilet counter will supply you with three ounces of orchard white for a few cents. Squeeze the juice of two fresh lemons into a bottle then put in the orchard white and shake well. This makes a quarter pint of the very best lemon skin whiten and complexion beautifier known. Massage this fragrant, creamy lotion daily into the face, neck, arms and hands and just see how freckles, tan, sallowness, redness and roughness disappear and how smooth, soft and clear the skin becomes. Yes! It is harmless, and the beautiful results will surprise you.

OUR SOLDIERS SOBER

A well known writer at the front. By Clarence B. Kelland.

No story can be told of our boys which is incredible to me, for I have seen them. I have seen them on the transport on their way over; I have seen them at rest, in training, in battle, in the hospital, and last, but not least significant, wounded, battered, maimed, and on their way home to America again on an ocean liner that once was Germany's pride. Everywhere they are great. At home they were just American boys—clerks, machinists, farmers. Possibly they were a bit objectionable to us sometimes. But all that is gone. They have achieved greatness; they are capable of anything; they have accomplished the impossible so often that it has become commonplace. One can pay them the highest possible compliment; one can say of them that they are worthy to take their place in the line of battle beside the poet and the Tommy; and when one has said that, nothing remains but silence. Remember that they have been in a strange land, thousands of miles from home, ignorant of the language and the customs. It has been a situation made up of difficulties, and yet they have done it. They have done it with a smile and a shout and a heart full of kindness. The French love them, and to be loved by the French is a thing worth while. And how they have behaved themselves! Mothers and fathers and maiden aunts have worried about their boys. It is absurd, for their behavior has been above praise. Let us look at one point alone; France is a land of wine. It is easier to get wine than water, but—and I have been from one end of France to the other, have seen countless thousands of our boys in all possible circumstances—but never yet—the thing is amazing to me—have I seen one American private under the influence of liquor. I don't know why, but it is so.—American Magazine.

LEAVES PRISON AND GETS RICH BEQUEST

Frankfort, Ky., Feb. 8.—Prosperity was awaiting Oscar Saunders, of Letcher county, when he returned home yesterday from the penitentiary after serving several years. A railroad had been built through a small farm which had been left to him by his wife, who died before he came to prison and which he said he regarded as worthless. He also found awaiting him a coal operator who desired to lease his farm as it contained a seven-foot vein of coal. He closed the contract, getting \$1,600 in cash and a royalty of 30 cents a ton on the coal mined. He figures that he will receive a nice income from what he had declared to be a "worthless junk pile."

LOOK AT CHILD'S TONGUE WHEN CROSS FEVERISH AND SICK

Take a chance! Move poisons from
liver and bowels at once.

Mothers can rest easy after giving "California Syrup of Figs" because in a few hours all the clogged up waste sour bile and fermenting food gently moves out of the bowels and you have a well, playful child again. Children simply will not take the time from play to empty their bowels, and they become tightly packed, liver gets sluggish and stomach disordered.

When cross, feverish, restless, see if tongue is coated, then give this delicious "fruit laxative." Children love it and it cannot cause injury. No difference what ails your little one—if full of cold, or a sore throat, diarrhoea, stomach-ache, bad breath, remember a gentle "inside cleansing" should always be the first treatment given. Full directions for babies, children of all ages and grown-ups are printed on each bottle.

Beware of counterfeit fig syrups. Ask your druggist for a bottle of "California Syrup of Figs," then look carefully and see that it is made by the "California Fig Syrup Company." We make no smaller size. Hand back with contempt any other fig syrup.

YATESVILLE.

Saw-milling, ground-turning, coal-mining and oil-drilling form the order of the day.

Belcher's saw mill is here and is doing a very good business. He has saved out one set of several thousand feet for Riffe Holbrook and others and is now saving for R. B. Knapp and has completed several thousand feet on the last job.

The latest thing that we know of to announce as to the oil business is the drilling in of No. 12 on the land of William Savage which proves to be another good producer. There is also oil machinery being set on the land of A. O. Carter—the same tract formerly owned by William Mitchell. The machinery and oil territory is the property of the Big Blaine Oil Co.

The like of sickness in this section of the country was never known before. The flu has and is playing sad havoc. There is scarcely a family but what has more or less sickness and nearly all the sickness is influenza.

T. H. Chadwick, a notary public of Cadmus, was doing notary work here for a day or so of last week.

Edward Riffe, one of our neighbor boys who has been doing war service for Uncle Sam, writes his friends that he will be discharged and will be at home at an early date.

Rev. R. F. Rice, our local preacher, has been on the sick list for several days past.

Mrs. Olga Smith, who died at her home in Catlettsburg one day last week, was brought to the old home burial ground where her remains were interred Sunday near the home of her father and mother, Mr. and Mrs. William Savage.

Milt and Charles Carter are still hauling coal from our mines into the oil fields.

The Yatesville switchboard has gotten out of working order and its call for all the other phones is very weak. The operator can't ring Louisa at all.

To the delight of his friends, Edgar Riley came home from the army with an honorable discharge.

William Cornwell is moving to Radnor, W. Va., and E. G. Rupe will move into the house vacated by Cornwell, which is the property of the widow of Sam Bartram.

I see a great many court goers on the road daily this week.

CALOMEL SALIVATES AND MAKES YOU SICK

Acts like dynamite on a sluggish liver and you lose a day's work.

There's no reason why a person should take sickening, salivating calomel when only a few cents buys a large bottle of Dodson's Liver Tonic—a perfect substitute for calomel.

It is a pleasant, vegetable liquid which will start your liver just as surely as calomel, but it doesn't make you sick and can not salivate.

Children and grown folks can take Dodson's Liver Tonic, because it is perfectly harmless.

Calomel is a dangerous drug. It is mercury and attacks your bones. Take a dose of nasty calomel today and you will feel weak, sick and nauseated tomorrow. Don't lose a day's work.

Take a spoonful of Dodson's Liver Tonic instead and you will wake up feeling great. No more biliousness, constipation, sluggishness, headache, coated tongue or sour stomach. Your druggist says if you don't find Dodson's Liver Tonic acts better than horrible calomel your money is waiting for you.

Of Course We Can Do It.

Some folks seem to think that Uncle Sam is going to have trouble this spring in floating his Victory-Liberty Loan of \$5,000,000,000.

That now that the war is over, all save signing the peace treaty, public support is going to loiter on the way to the bond counter.

But don't you believe it. The great American public, which means of course nothing more nor less than the American people, are going to finish the job.

They've been behind Uncle Sam every minute. They're behind him right now. They're going to be behind him until the last nail is driven in the coffin of Kaiserism. Until democracy is really safe for the world.

It took just three weeks in the Fourth Liberty Loan for these same folks to subscribe something like \$5,500,000,000.

And it wasn't such great shakes as an effort at that.

They have bought something like \$17,000,000,000 worth of Liberty Bonds since the war began almost 18 months ago.

Yet no one has gone broke in the performance.

And there is still a sufficient surplus of loose change lying around the country to take this next \$5,000,000,000 issue without seriously crippling any of the projects necessary to our continued prosperity.

Besides this next loan is to be only for a short term, and the rate is to be higher, and winter will be over and spring will be in the air and all will be lovely. And the future will be looking as bright as the skies.

Owing to the serious disruption to rail traffic, the War Department has announced that parades of divisions of troops returning from overseas can be held in only a few cities near ports of debarkation. Grave danger of congestion of ports would be another result, it is said.

The batch of fifty-four foreigners on the way to New York from Seattle and other Western cities for deportation, although by far one of the largest hauls the immigration authorities have made recently, represents the fruits of a campaign against undesirable aliens which has been in progress for some time.

MILTON WROTEN WRITES TO HIS HOME FOLKS

November 4.
We finished a long hike yesterday and will probably stay here in a small town until we are ready to sail. We left on the 18th and hiked from our camp near the front to this place which is some distance southwest of where we fought our "big scrap."

The thing I worry most about is whether you know that I am alive or not. I tried to cable you, but there was no way to get to a cable office and is not yet.

I am comfortably situated here as I have a nice room instead of a stable, and a very nice old French woman to look after my wants. She can't seem to do enough for me. Builds my fires, brings me hot milk and even tucks me in bed as she says she has three sons in the army, and knows what it is. I have been fortunate all through our hike as we would hike in the day and billet in some town at night and I was always successful in procuring a bed to sleep in and something good to eat. I will have plenty to do here as our outfit is very deficient as to clothing and equipment and all has to be gone over and the men re-equipped.

Although the hike was exhausting, I really enjoyed it. I was in charge of the wagon train and that helped as it was not nearly so monotonous as marching in column for I had something constantly to divert my attention, and passing through so many villages was interesting. Here there is a town nearly every three miles and the roads are a marvel in engineering and perfection.

The people are very polite and accommodating, but everything is extremely dear. A chicken costs not less than \$2.50 and very hard to get at that.

We are not far from where we trained the first month we were in France when we couldn't even date our letters.

Continue to write for there is no telling when we will leave.

Shoe Prices and Leather

Why, with some commodities falling in price we can not escape the conclusion that shoe prices will remain at least on the present basis throughout the year.

The supply of cattle in the world in ratio to population has greatly decreased during the war. There is no surplus of hides, skins, leather or shoes, and in fact a shortage exists in a majority of the European countries. Packer hides in this country are extremely scarce, and practically the same condition apply to country hides. Other countries appear willing to pay higher prices for South American, and other foreign hides than the United States Government has fixed. There is no surplus of sole leather of good quality and this also applies to upper leather. Kid skins are in short supply and evidently are going to advance in price. Cost of production, including labor, is higher than ever before.

It would therefore seem that footwear being in short supply the world over that the present fair prices would continue. The price of shoes advanced less during war than any other staple product.

M. E. CHURCH SOUTH.

The attendance at Sunday school last Sunday was larger than usual. A good centenary address was made by M. S. R. C. McClure, Prof. Kennison was able to be back in charge of the men's class, much to the delight of the members.

Rev. Chambers preached a forceful sermon on "The Stewardship of Life." Many persons came forward on a consecration proposition and the service was unusually helpful. A duet by Misses Opal Spencer and Elizabeth Burgess was quite enjoyable. The three minute speaker being out of town, his place was very ably filled by A. O. Carter, who is in charge of the centenary speakers program. Rev. Chambers took occasion at this service to thank the many friends who assisted him during the illness of his wife and baby.

At the evening service the pastor delivered an interesting sermon on the Prodigal Son, being the second of a series. Miss Nina McHenry was the centenary speaker and her address was up to the high standard of the series.

Centenary speakers announced for next Sunday are Mrs. E. C. Pepples for Sunday school, Miss Margaret Lackey at morning church service, Miss Sallie Burns at the night service, and Mrs. J. L. Carey at prayer meetings.

Mrs. F. H. Yates' centenary paper at prayer meeting last week was exceedingly good.

FIRST BAPTIST CHURCH.

(J. T. Pope, Pastor.)

The pastor preached Sunday morning to a large congregation on Barnabas, the Ideal Christian. The Sunday school was a little larger than usual and the collection was also ahead. Our attendance is larger than it was a year ago and our contributions are just about double what they were a year ago. Much of this improvement is due to the untiring efforts of Mr. W. H. Vaughan. His class has increased several fold since he returned from the war and took up the work again with them.

We have one chief fault that ought to be remedied as far as possible. That is, so many young people leave when Sunday school is over and don't stay for church. That is forming very wrong habits. Let each young man and young lady remain for the church service.

The services at evening consisted of a musical concert given by the choir. It was greatly enjoyed by the congregation.

Many beautiful and bright faces of students from Prof. Byington's school were seen in the congregation Sunday morning and evening. They have a hearty invitation to attend all our services.

Miss Sue Bromley, our senior church organist, was at home Sunday on a visit from Van Lear where she has been engaged in teaching for several months. Her church and Sunday school are looking forward with eager anticipation for the time to come when Miss Sue's school will close and she

will be with us all the time.

M. E. CHURCH.

The Methodist Episcopal church of this city is joining for the next six weeks with other churches of the denomination throughout the country, in the greatest campaign for tithes ever undertaken by a great Protestant church. The object is to secure at least a million tithes, or one-fifth of the membership, who will pledge themselves to devote at least one-tenth of their income to religious purposes.

Leaders of the Methodist church believe that the practice of the tithing system generally among its membership is a fundamental principle, and that it will solve many of the problems not only financial but otherwise, of the modern church. Financially, of course, it will put the church on a basis where it can take more adequate care of the work facing it at home and abroad.

Pastor's Announcements.

J. ISRAISKY

Forty Five Years of Success The astonishing Record of PERUNA

Not a cure-all, but a rational remedy for catarrh and all inflammation and congestion of the mucous membranes.

Catarrh attacks the mucous linings, in any organ, in any part of the body. It is not, as some imagine, confined to the nose and throat, although nasal catarrh is the most common form and afflicts many people.

Unchecked catarrh soon breaks down the tissue and destroys the organs or part. Evidence of the ravages of catarrh are all around us. Without desire to frighten anyone, we say: "Guard yourself against catarrh as you would against the direst plague. Fortify your system. Take Peruna."

INSPIRING WORDS FOR THE SICK FROM THOSE WHO KNOW.

A Good Medicine in the Family.
I had a bad case of LaGrippe and could get no relief. Peruna cured me. It is a fine medicine. We often use it in the family and find it good.

MRS. GENTRY GATES,
8225 First Avenue,
East Lake Station,
Birmingham, Alabama.

FEELS LIKE A DIFFERENT PERSON.

Peruna has cured my stomach and I feel like a different person. I only took twelve bottles of Peruna and can eat anything without distress, something I have not done for fifteen years.

I recommend Peruna to everybody suffering with catarrh of the stomach.

1029 16th St.,
Columbus, Georgia.

FOR ALL FORMS OF CATARRH.

Peruna is indicated for all forms of catarrh or catarrhal inflammation and congestion of the mucous linings in any part or organ, such as nose, throat, bronchial tubes, lungs, stomach, bowels, kidneys, bladder, etc. It is fine for coughs, colds and effects of the grip and an excellent preventive remedy.

If you want health, insist upon having Dr. Hartman's World Famous Peruna Tonic.

TO BRING HOME BODIES BURIED ON ALIEN SOIL

Navy Department to Begin
Actual Work in Few
Months.

Washington, February 9.—Plans for bringing home the bodies of all officers, sailors and marines now buried or foreign soil are being worked out by the Navy Department and the actual work will be undertaken within the next few months. The wishes of relatives, however, will govern not only as to the return of the bodies, but also as to their final disposition. Those brought home either will be sent forward for private interment or buried in the Arlington or some other national cemetery as the relatives may decide.

The department's announcement today expressed a preference for bringing home all bodies. It was pointed out that as a result of the careful preparation made at the outbreak of the war it had been possible to return the bodies of hundreds of those who died overseas. In the case of marines and naval detachments serving with the army, however, this was not possible and instead a careful system of permanent marking of graves was maintained. If the nearest of kin of any of the men who gave their lives for their country desire the dead will be left to rest in France, probably in special purchased American cemetery sites, where perpetual care and recognition will be assured.

The department's statement said that where bodies were brought home for burial in national cemeteries full military honors would be accorded, and where private interment was desired the navy would prepay all expenses up to delivery of the casket to relatives, and that the war risk insurance bureau of the Treasury would refund actual burial expenses not exceeding \$100 in each case upon presentation of the claims.

Relatives of the dead of navy and naval reserve were requested to write the bureau of medicine and surgery as to their wishes, and those of the

dead of the marine corps were invited to communicate with the commandant of the corps.

WILL VISIT BERLIN.

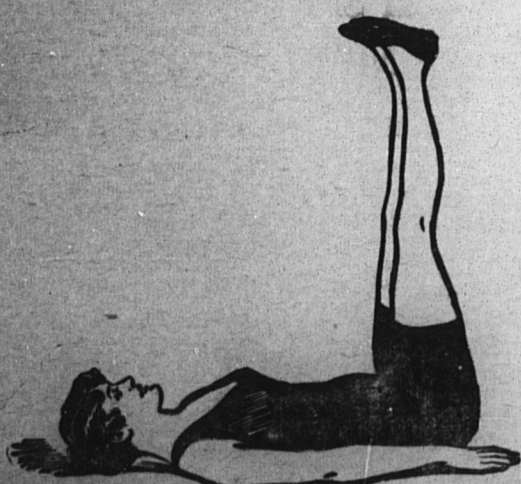

A limited number of officers and enlisted men of the Army of Occupation will be given an opportunity to visit Berlin in the inauguration soon of a daily courier service between Coblenz and the capital.

Couriers were decided upon owing to the uncertainty of German mails and the slowness in transmission of documents of importance. Each courier will be accompanied by an officer and the trip will be made by express trains between Cologne and Berlin, the running time being about twelve hours. Cologne is about two hours from Coblenz. Various lieutenants and captains will be assigned for trips from day to day, and privates will be selected from different units assigned to Coblenz.

Do This Each Morning, You Won't Need Cascarets

Great exercise! Keeps Stomach, Liver and Bowels active. Nothing like it! Splendid!

But if you insist upon taking your exercise in an easy chair you simply must take a laxative occasionally. The very, very best laxative is Cascarets—10 cents a box. "They work while you sleep."

Nothing else works the bile, sour fermentations and poison from the liver and bowels like harmless Cascarets. When Headachy, Bilious, Constipated or if Breath is Tainted, Complexion Sallow, Stomach Sour, just take a Cascaret at night. Wake up next morning looking rosy and feeling fine. Cascarets never gripe or sicken. Cause no inconvenience!

MEXICO CHANGES ATTITUDE TO U. S.

Washington.—American rights in Mexico will be amply safeguarded by the Mexican government, according to Ambassador Henry P. Fletcher, who is here from Mexico City for conferences with State Department officials, with an optimistic view of the situation in the Southern republic.

The Ambassador declared the feeling there toward this country had become more friendly since the recall of the German Minister, the notorious von Eckhardt, and the consequent cessation of anti-American propaganda. President Carranza in the last two years, he said, had accomplished a

Weekly Health Talks What Doctor Pierce Has Done For Humanity!

BY DOCTOR CHIFFS.

It has always seemed to me that Dr. Pierce, of Buffalo, N. Y., should be placed near the top when a list of America's great benefactors is written. He studied and conquered human diseases to a degree that few realize. Whenever he found a remedy that overcame disease, he at once announced it in the newspapers and told where it could be bought at a small price. He did not follow the usual custom of keeping the ingredients secret, so that the rich only could afford to buy the medicine, but openly printed the name of each root and herb he used. And so-to-day the names of Dr. Pierce and his medicines are widely known, and they stand for better health and better citizenship.

One of this great physician's most successful remedies is known as Doctor Pierce's Pleasant Pellets. These are little, sugar-coated pills, composed of Mayapple, leaves of alo, root of jalap, things that Nature grows in the ground. These Pellets are safe because they move the bowels gently, leaving no bad after-effects, as so many pills do. Very often they make a person who takes them feel like a new man or woman, for they cleanse the intestines of hard, decayed and poisonous matter that accumulates when one is constipated. If you are constipated, by all means go to your druggist and get some of Dr. Pierce's Pleasant Pellets. They may prove to be the very thing your system requires to make you well and happy.

great work in preparing for development and reconstruction and in reorganizing the public service, and had made such headway in this respect that the various bandit leaders now were without real influence and were operating in small bands.

He was emphatic in the statement that Carranza was the real power in Mexico.

Of paramount importance, the Ambassador said, was the possibility that the troubles of oil interests, including American, soon would be adjusted.

TWO TICKLED SCHOLARS.

GIRLS! HAVE WAVY THICK, GLOSSY HAIR FREE FROM DANDRUFF

Save your hair! Double its beauty in a few moments—try this.

If you care for heavy hair, that glistens with beauty and is radiant with life; has an incomparable softness and is fluffy and lustrous, try Danderine.

Just one application doubles the beauty of your hair, besides it immediately dissolves every particle of dandruff; you cannot have nice, heavy healthy hair if you have dandruff. This destructive scurf robs the hair of its lustre, its strength and its very life and if not overcome it produces a feverishness and itching of the scalp; the hair roots famish, loosen and die; then the hair falls out fast.

If your hair has been neglected and is thin, faded, dry, scraggy or too oily get a small bottle of Knowlton's Danderine at any drug store or toilet counter for a few cents; apply a little as directed and ten minutes after you will say this was the best investment you ever made.

We sincerely believe, regardless of everything else advertised, that if you desire soft, lustrous beautiful hair and lots of it—no dandruff—no itching scalp and no more falling hair—you must use Knowlton's Danderine. If eventually—why not now.

TERRIBLY SWOLLEN

Suffering Described As Torture Relieved by Black-Draught.

Rossville, Ga.—Mrs. Kate Lee Able, of this place, writes: "My husband is an engineer, and once while fixing, he injured himself with a piece of heavy machinery across the abdomen. He was so sore he could not bear to press on himself at all, on chest or abdomen. He weighed 165 lbs., and fell off until he weighed 110 lbs., in two weeks.

He became constipated and it looked like he would die. We had three different doctors, yet with all their medicine, his bowels failed to act. He would turn up a ten-cent bottle of castor oil, and drink it two or three days in succession. He did this yet without result. We became desperate, he suffered so. He was swollen terribly. He told me his suffering could only be described as torture.

I sent and bought Theodor's Black-Draught. I made him take a big dose, and when it began to act he fainted, he was in such misery, but he got relief and began to mend at once. He got well, and we both feel he owes his life to Theodor's Black-Draught."

Theodor's Black-Draught will help you to keep fit, ready for the day's work. Try it. NO-428

CENTENARY VISION CHALLENGES CHURCH

Enormous Power Now Released Must Be Used.

DECLARES BISHOP M'DOWELL

Methodists Possess Resources to Meet Centenary Challenge—Fifty Thousand Minute Men to Aid—Peril of Mohammedanism Discussed.

Columbus, O.—(Special.)—"We are face to face with the providence of an altogether sufficient challenge to the church to do big things and do them now," declared Bishop William F. McDowell of Washington, D. C., addressing the Methodist Centenary (Cincinnati area) convention.

"We have just had an extraordinary providential demonstration of the power and interest of the church and the nation when a great cause is at stake," said the bishop. "Now we are face to face with a providential release of enormous power which must not be permitted to get back to the small things or to mere conventionalities again."

"The church must remake the world's mind," declared Bishop McDowell. "The mind of the world must be made according to the mind of Christ."

"Second, we must remake the

ERNEST H. CHERINGTON.

Chairman, Cincinnati Area, Methodist Centenary.

world's ideals. Commerce can not rule the world.

"Third, we must remake the world's faith. An unbelieving world or a wrong-believing world can not help coming to grief. The faith of the world in the God of Jesus Christ must be made by the church of Jesus Christ. And this is the task of the centenary."

Financial Resources Large.

"In the very audacity of the centenary's appeal lies the power of its appeal," declared Edgar Blake, associate executive secretary of the centenary movement. "If the centenary is asking for a staggering sum it is because the church is up against a staggering task," he declared, stating that when the opportunity, obligation and possibility now before the church is realized, one marvels not at the size of the centenary, but at the modesty of its askings.

"Our present giving is not the measure of our ability, but the measure of our interest. To think otherwise would put Methodism to confusion and shame," declared Dr. Blake. "The amount asked for by the centenary, staggering as it may seem in the aggregate, simply means that where a Methodist individual is now giving a nickel, we must ask him to give 64 cents for the whole task of Methodism," he said.

"Methodism has the ability to put the centenary over the top. It only lacks the will to do it, and that is rapidly coming."

50,000 Minute Men.

Dr. Christian F. Reisner of New York city outlined the plans by which the church expects to have 50,000 minute men, similar to those used in behalf of various governmental affairs during the war, presenting the interests of the centenary.

"John R. Mott, 25 years ago, urged the Christian nations to 'evangelize the world in this generation,'" said Dr. Reisner. "If they had done so there would have been no world war. If we do not now evangelize the world, our grandchildren will see another world war."

"Imagine what the condition of the world will be if Mohammedanism takes Africa, India, Malaysia, then if Japan, with her efficiency and her new organization, heads the group. They will crush out civilization from the world and establish the worst autocracy the universe has ever known."

"The centenary would bring to these countries, troubled and hungry, a heart devoted to service. At home and abroad, it means that we meet the staggering needs of this eventful hour."

SOMETHING ABOUT SUNNY FLORIDA

I will tell you something about this great country, the garden spot of the United States. The thermometer registered 54 December 27, 1918. Flowers in bloom, grass green, thousands of cattle roaming over the broad acres of grazing land. English Peas in bloom. Thousands acres of cabbage are almost ready for the market. There are opportunities here for hustlers, but if you don't want to hustle and have plenty of money, come and spend the winters in Florida. Hundreds of people own orange groves here and still live in the north and come here in the winter; then go back north in summer and have a good income from the grove. I prefer staying here myself as you well know or Dr. Bromley can tell you I was an asthmatic as bad as any case in the Big Sandy Valley. Am cured sound and well and don't want to take any chance on another attack. People are fine, kind, sociable and the very best of neighbors. I have made good here and this past summer has been one of pleasure. At no time was it over 99 at Orlando, Fla. I will be glad to answer any questions any of my friends may want to ask whether it profits me or not. You all know I am a Real Estate dealer and try to make a little on every deal but not enough to hurt any one. With best wishes to all my friends and the News, I am, yours truly, F. B. LYNCH, Orlando, Florida.
